

Pago en Efectivo

“Pago en Efectivo” is a product created specifically for the Mexican market.

Following thorough market research and business strategy development, our local knowledge has enabled us to launch, in collaboration with one of the top three banking entities in Mexico, a product that enables the public to deposit in cash so that they may purchase goods or pay for services online. As a result Pago en Efectivo gives users in this region the opportunity to carry out online transactions using one of the most well-known and effective methods available in the Mexican market.

With more than three-thousand points to make payments in cash in Mexico DF alone, Pago en Efectivo is hugely appealing to potential clients that lack confidence in disclosing personal and confidential information online.
